

ICWE2008 invites original submissions in the following categories: research papers, industrial papers, demonstrations, workshops, PhD student papers, and tutorials. The submissions may cover new approaches, viewpoints, challenges, and visions on any aspect of Web Engineering, report on the implementation or deployment of advanced Web projects in an industrial or application scenario, or describe Web Engineering education experiences.

ICWE 2008

International Conference On Web Engineering

Yorktown Heights, New York, July 14-18, 2008

TOPICS

Important Dates

Submission of papers:

February 22, 2008

Submission of Workshop papers:

April 14, 2008

General Chair

Paul Dantzig, IBM Research, USA

Program Chairs

Daniel Schwabe, PUC-Rio, Brazil

Francisco Curbera, IBM Research, USA

Doctoral Consortium Chair

Emilia Mendes,

University of Auckland, New Zealand

Workshop Chairs

Martin Gaedke, Chemnitz University of Technology, Germany

Maria Bielikova, Slovak University of Technology, Slovakia

Posters Chair

Michael Grossniklaus,
ETH Zürich, Switzerland

Demo Chair

Silvia Abrahão, Universidad Politécnica de Valencia, Spain

Tutorial Chair

Bebo White, SLAC, USA

ISWE Liaison

Martin Gaedke, Chemnitz University of Technology, Germany

IW3C2 Liaison

Bebo White, SLAC, USA

- Collaborative Web application development
- Design models and methods Web application development
- Programming models for Component-based Web application development
- Service discovery and choreography Web Engineering
- Infrastructure and models for service delivery over the Web services-based applications
- Rich Internet Applications Web architectures and application frameworks
- Semantic Web centric architectures for enterprise computing
- Reuse and integration Web Engineering Hypertext models and their application on the Web
- Engineering approaches to Semantic Web design patterns and pattern mining
- Engineering of Semantic Web applications
- Adaptive Web content management
- Testing and evaluation of Web services
- Deployment of Web applications
- Localization and internationalization of Web quality and Web metrics
- Mobile Web systems and applications
- Domain-specific approaches for Web usability and accessibility
- Social Web applications
- Mobile Web applications
- Empirical Web Engineering
- Performance modeling, monitoring and evaluation
- Web applications
- Web application development and Device-independent Web delivery
- Web-based applications and solutions
- Web-based Workflows and collaborative Web Applications
- Web personalization
