

ICWE2008 invites original submissions in the following categories: research papers, industrial papers, demonstrations, workshops, PhD student papers, and tutorials. The submissions may cover new approaches, viewpoints, challenges, and visions on any aspect of Web Engineering, report on the implementation or deployment of advanced Web projects in an industrial or application scenario, or describe Web Engineering education experiences.

# ICWE2008

## International Conference On Web Engineering

### Yorktown Heights, New York, July 14-18, 2008

#### TOPICS

#### Important Dates

*Submission of papers:*

February 22, 2008

*Submission of Workshop papers:*

April 14, 2008

#### General Chair

Paul Dantzig, IBM Research, USA

#### Program Chairs

Daniel Schwabe, PUC-Rio, Brazil

Francisco Curbera, IBM Research, USA

#### Doctoral Consortium Chair

Emilia Mendes,  
University of Auckland, New Zealand

#### Workshop Chairs

Martin Gaedke, Chemnitz University of  
Technology, Germany

Maria Bielikova, Slovak University of  
Technology, Slovakia

#### Posters Chair

Michael Grossniklaus,  
ETH Zürich, Switzerland

#### Demo Chair

Silvia Abrahão, Universidad Politécnica de  
Valencia, Spain

#### Tutorial Chair

Bebo White, SLAC, USA

#### ISWE Liaison

Martin Gaedke, Chemnitz University of  
Technology, Germany

#### IW3C2 Liaison

Bebo White, SLAC, USA

Collaborative	Web application development
Design models and methods	Web application development
Programming models for	Web application development
Component-based	Web Engineering
Service discovery and choreography	Web services-based applications
Infrastructure and models	Web architectures and application frameworks
for service delivery over the	Web centric architectures for enterprise computing
Rich Internet Applications	Web Engineering Hypertext models and their application on the Web
Semantic	Web design patterns and pattern mining
Reuse and integration	Web applications
Engineering approaches to Semantic	Web content management
Engineering of Semantic	Web services
Adaptive	Web applications
Testing and evaluation of	Web quality and Web metrics
Deployment of	Web systems and applications
Localization and internationalization of	Web usability and accessibility
Mobile	Web applications
Domain-specific approaches for	Web applications
Social	Performance modeling, monitoring and evaluation
Mobile	Web applications
Empirical	Web applications
	Web application development and Device-independent Web delivery
	Web-based applications and solutions
	Web-based Workflows and collaborative Web Applications
	Web personalization
	Web applications
	Web applications
	Web Engineering
